

RISK ASSESSMENT RA_005

TASK: Running Trials

Version 2.00

	Hazard	Risks	No of People at Risk	Estimate of Consequences	Estimate of Likelihood	Risk Rating	Existing Controls	Estimate of Likelihood After Control Measure	Risk Rating After Control Measure	Comments
1	Vehicles	Bruising Broken bones Grazing Roll over Vehicle damage Environmental damage Spectator injury	Competitors Marshals Spectators	3	5	15	<ul style="list-style-type: none"> Vehicles to comply with EMORC MSA regulations Invited entries to comply with to a minimum of MSA blue book, and or ARC regulations. All vehicles to be scrutineered before entering the event 	1	3	
2	Spectators public on section	Bruising Broken bones Grazing Roll over Vehicle damage Environmental damage Spectator injury	Competitors Marshals Spectators	5	5	25	<ul style="list-style-type: none"> Section to be checked and cleared by marshals before first vehicle starts Section to be checked by marshals during the event Marshals to be in eye / voice (radio) contact through out the section. Clerk of Course decision is final 	2	10	

Estimated Consequence: 1 = fright or made to jump; 2 = Graze / Bruise 3 = minor wound / Damage ; 4 = requires medical aid; 5 = requires ambulance

Estimated Likelihood: 1 = Extremely unlikely 2 = Unlikely 3 = Likely 4 = Very Likely 5 = Certain to happen

Risk Rating = Likelihood X Consequence 1 – 5 = LOW Risk 6 – 14 = MEDIUM Risk 15 – 25 = HIGH Risk
